*learning to work together, working to learn together
apprendre à collaborer, collaborer pour apprendre*

Correction

[Date]

Canadian Interprofessional Health Collaborative

[Second organization]

ATTENTION: ASSIGNMENT EDITORS

LOCATION – Mistakes happen, and when they happen in news releases or media advisories we may need to issue a correction. This should be a single paragraph saying where we made the mistake, and correcting the error, just like the “for the records” you see from time to time in newspapers, generally on the second page.

Never send an advisory or a release out a second time with the mistake fixed – you’ll create confusion.
